SGT.,

On 06Mar13 an assessment of computer equipment was done for the Asset Forfeiture Unit. Found current computer equipment (PCs, monitors and printers) to be end-of-life equipment which are no longer supported by Unysis. Update of Microsoft office is required for them to create a new database for the 1505 funds and vehicle office forfeiture. Stand-alone printers required due to sensitive/confidential print information. Also, found that the AF Server does not have a UPS power source which turns off when power goes down in building.

This is what they currently have: 37 computers  
Dell Optiplex GX520 SP3  
512G Mem 149G HD  
Misc... Old HP and Dell printers which toner is not supplied any more.

XP pro Office2k3, LEADS 2000, ACCURINT, FINCEN(financial database for law enforcement) Crystal reports, CHRIS.

This is their wish.

Here is a list of items that Officer Contreras and I spoke about when doing a walk-through:  
Requesting- DocuShare on all Printers and all AFIUcomputers, IBM i2 Analyst Notebook a charting software for all investigators including supervisors TOTAL of 12 Licenses.

VEHICLE Office Dept.

8 Computers (capability to fax from desktops) w/8 DUAL Monitors  
8 stand-alone w/docushare  
1 Xerox Color Printer w/fax  
(\* State Attorney need access, IClear & docushare)

Accounting and Data Entry Dept.

4 computers  
2 printers w/fax options

CMO Case Management Dept.

2 computers (fax capability from PCs)  
2 stand-alone printers w/fax options

Conference Training Room

1 computer  
1 Smart Board

Investigators area

9 computers  
1 Color Printer

Money laundry area

6 computers  
6 stand-alone printers or 1 Color printer  
(area that will need the IBMi2 Analyst Notebook charting software-12 license)

Housing Dept.

5 computers  
5 small stand-alone Xerox Color printers

LTNT Office

1 computer  
1 printer

AF Server ROOM/ Sgt's office

1 computer  
1 printer  
1 UPS Power Source for their Dell PowerEdge T110 II Server  
\*email notifications setup on server for Data Backup software.

**From:** Tomasiello  
**Sent:** Friday, October 14, 2011 1:53 PM  
**Subject:** Asset Forfeiture Requests for Arrest Changes  
**Attachments:** BAS service request.pdf

We recently received a BAS Service Request from Lt. Kilroy of Asset Forfeiture requesting changes to automated arrest. Essentially, the Lt. is requesting mandatory fields be added to the arrest screen in order to capture not only vehicle information, but whether the arrestee was the passenger or driver of the vehicle. Also, the request is to capture the name(s) all persons in the vehicle and identify who was the driver if different than the arrestee.

Asset Forfeiture is requesting these changes in order to quickly identify the vehicles that are subject to forfeiture prior to the hearing date. Currently, they obtain notice of impounded or seized vehicle in the form a packet (copy case report, tow report impoundment/seizure form) sent through police mail by the arresting officer. Asset Forfeiture prepares their paper work for the ASA/courts within 10 days of seizure of the vehicle. Asset Forfeiture is now required, by the courts, to present their request for seizure in 5 days.

These requested changes would require not only application changes, but it would involve database and report changes as well.

Alternative solutions to the request are as follows:

- 1) Modify Automate Arrest by making a mandatory response to "was the arrestee's vehicle seized or impounded?" on the vehicle page. If "yes", all vehicle information would be mandatory. If "no", user continues to next page. An additional work queue would be created allowing Asset Forfeiture to view all the vehicles seized/impounded with a link to view/print the arrest report. We could make these changes using an in-house resource.
- 2) Use the 1505 fund identified by Asset Forfeiture to automate the Vehicle Tow Report. This would basically involve creating front end screen which would mimic the current paper report and allow for querying and printing of reports. This application would allow Asset Forfeiture to view vehicles seizure/impoundments in real time.
- 3) Fully automate the Vehicle Tow Report providing integration to the Hot Desk, Automated Arrest and Case with access to other City agencies.

Attached is a copy of the BAS Service Request.

Thanks for helping us with the demo and for working with John and Ruben on the effort. Ruben will be handling the purchase and will let us all review prior to finalizing. Don't worry about the details of the procurement process, it will be handled through the [REDACTED] and someone will reach out as appropriate to facilitate.

Also, I know you're very anxious to get this done and so are we, but please don't reach out directly to anyone else at CPD in an effort to expedite-- we'll let you know as soon as we have any more information.

Thanks again!  
Jonathan

Thanks for the info.

I cannot speculate on exactly how the purchase will be completed, that responsibility was removed from me when the project was moved over to OEMC. I wish I had some additional information, but I just don't at this point.

I will definitely forward your analysis on so that the decision makers will know the capabilities of the system and that the demo period cannot go on forever. As to the monitoring of the [REDACTED] [REDACTED] and fine tuning of the data we send you that will ultimately need to be tweaked when the project is finalized.

If I hear anything I will definitely let you know.

Thanks,

John

**Subject:** RE: [REDACTED]

Thanks for the info.

I cannot speculate on exactly how the purchase will be completed, that responsibility was removed from me when the project was moved over to OEMC. I wish I had some additional information, but I just don't at this point.

I will definitely forward your analysis on so that the decision makers will know the capabilities of the system and that the demo period cannot go on forever. As to the monitoring of the [REDACTED] and fine tuning of the data we send you that will ultimately need to be tweaked when the project is finalized.

If I hear anything I will definitely let you know.

Thanks,

John

Chris-

Thanks for helping us with the demo and for working with John and Ruben on the effort. Ruben will be handling the purchase and will let us all review prior to finalizing. Don't worry about the details of the procurement process, it will be handled through the [REDACTED] and someone will reach out as appropriate to facilitate.

Also, I know you're very anxious to get this done and so are we, but please don't reach out directly to anyone else at CPD in an effort to expedite-- we'll let you know as soon as we have any more information.

Thanks again!  
Jonathan

Commander Lewin,

As we discussed, we typically will open up to 2 [REDACTED] however given the size of Chicago PD and importance we would be willing to open up more if you wish. Attached is a sheet you can fill out with some basic information that I will need to set up accounts. If you need more accounts simply just add them to the list. We can also add more when I am there. The more people using the system for investigations the better chance we have of creating success stories. Attached is a recent press release on the Sacramento County who used our data for a demo and generated tremendous success. With just as much or more data in the Chicago area I have no doubt we can recreate or surpass Sacramento's statistics as long as we get the right people using the system and they take advantage of all the features [REDACTED]  
[REDACTED]

From looking at the organizational chart of Chicago PD would it be possible to have users from these groups? Certainly any other groups you feel would benefit from the data are more than welcome to have a user account.

Short videos showing some of the features of [REDACTED]  
[REDACTED]

Bullet Point Items on [REDACTED] features:  
[REDACTED]
