Alex,

Also, we *did not* ask you to publish this report to CLEAR. We asked if you could fix the issue with the inventory numbers which has not been resolved. We have had a BAS request in for help with additional fields since November of 2011 and again in December of 2012. We need this report fixed and then sent back as an attachment to me.

The report you published in CLEAR is providing inaccurate data and we cannot rely on this report to meet our mandated forfeiture deadlines. The problems we are having are related to way data is being transferred to the tables in CLEAR_DW. The inventory numbers were once transferred from the fields in Hot Desk and they stopped working after the new system rolled out. The additional problems associated with the narcotics fields are pulling data from the property inventory tables and they should be pulled from the Arrest_All tables. Without seeing the original report I sent you I would not be able to tell you what was fixed. I am familiar with all of the tables in this report and if you can simply make the inventory numbers available in CLEAR_DW I can resolve this issue myself. The same can be done with the narcotics type and weight. I just need to data added to the Arrest_All table and the report should work properly.

NOTE: If you would like me to seed a copy of the various BAS requests we sent to PSIT or the various e-mail messages regarding issues with our crystal report please let me know and I will send copies.

Thanks,

Renee

Renee,

I ran the report using 09-10 MAY and it worked fine. It appears from your screen shot that you are trying to query a date in the FUTURE and that is why it is timing out.

I understand you have reporting needs and we have published your report as you presented it however PSIT is not staffed to instruct Department members on Crystal Reports builds and formatting.

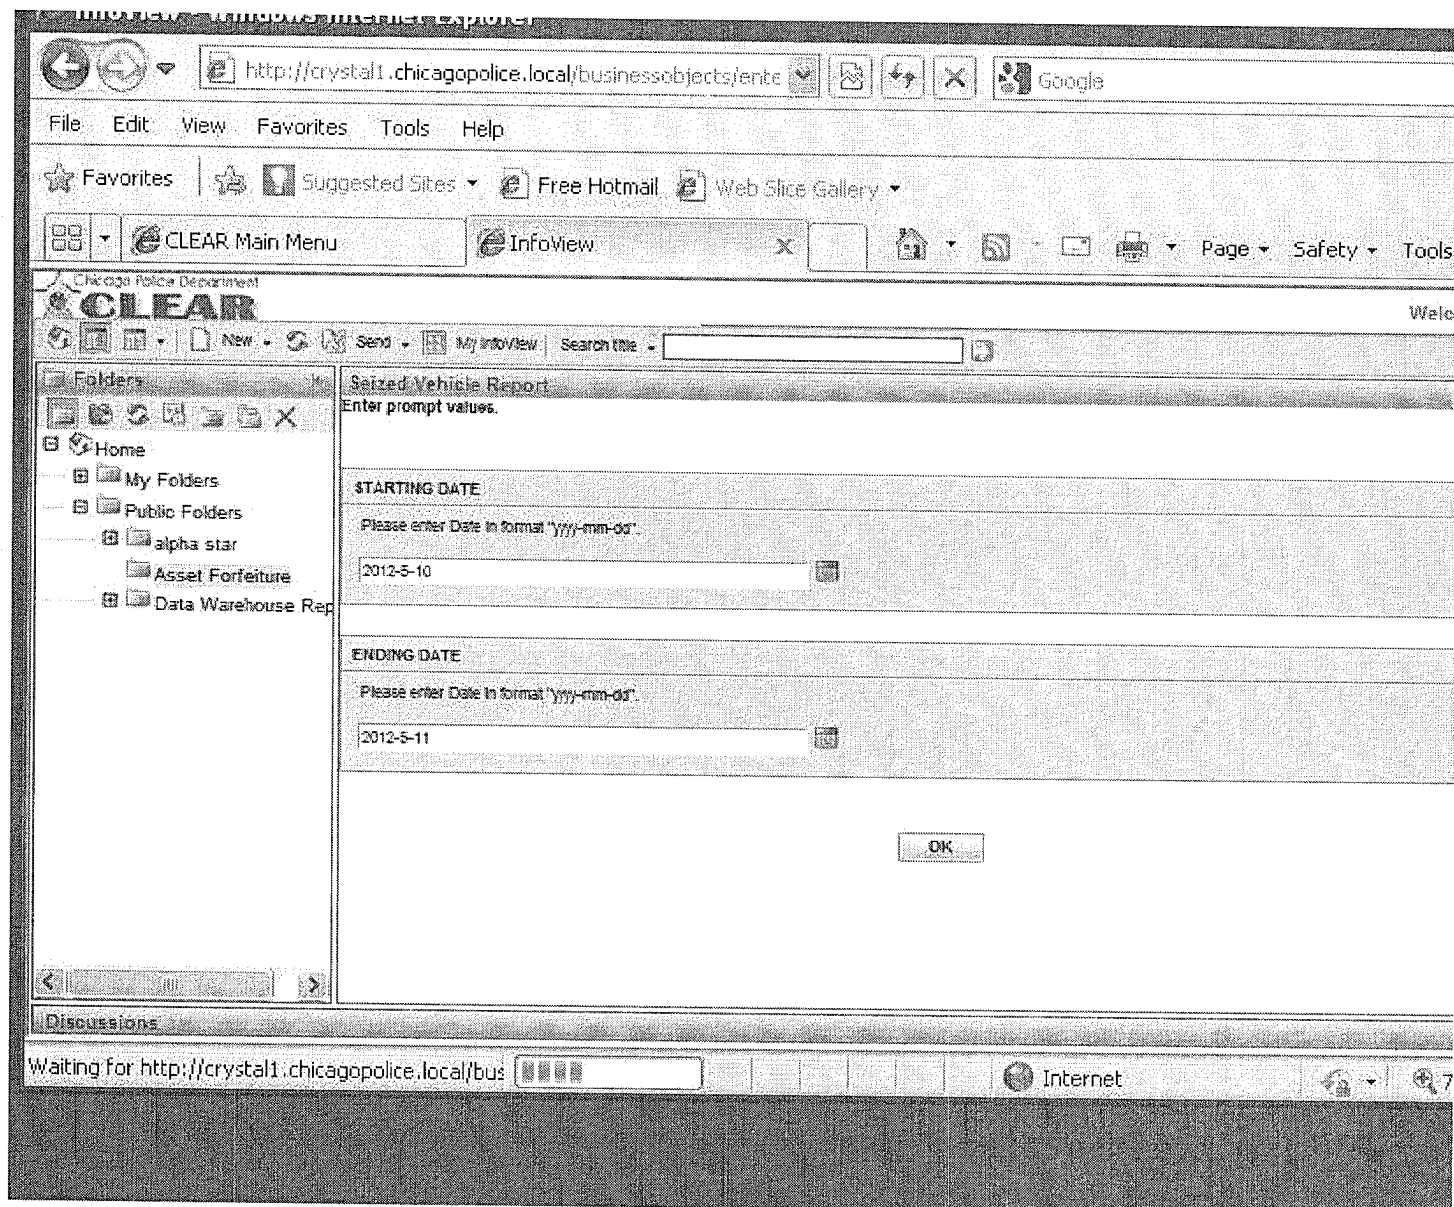

I suggest you follow up with a request to R&D on your specific report needs as they are staffed with analysts that can perform the function you seek.

Subject: AFI Crystal Report still not functioning
Importance: High

Alex,

I tested the report you fixed for us that you published in business objects. I was not able to run the reports needed to release vehicles today because all this report does is hang... I have provided a screen shot for you to view. Also, the report is missing the option to query by time and date. We use different queried times and if necessary add fields to these reports as needed for specific investigative purposes. If you could send us the original functioning crystal this would be easier for us to use and revise as needed.

Thanks,

Renee

Subject: FW: Question

Lt,

We are working to restore the Data Warehouse that will enable your report to run.

ARS temporarily assumed the function of entering tow records into Hot Desk from Streets & Sanitation. The Hot Desk and related Data Warehouse tables can only display what is in the system.

ARS is doing the best they can with this task and is aware of the urgency in this matter. In addition to CPD, CDOT, DoIT, Streets & Sanitation, NICB all rely on the Hot Desk data and we are assisting in every way possible to provide it.

I will keep you updated on the progress.

Thank you,

Every time we needed to look up information on Impounded vehicles, we would check the HotDesk. If the information needed is not getting entered into the HotDesk by CPD, Commander Lewin needs to be notified. Unfortunately, we still do not have access to the Hotdesk and will not be able to assist.

Importance: High

Alex,

I realized that the dates were off that is why I sent you a second screen shot in another e-mail message correcting the dates and showing you that only two vehicles were identified. I also showed that when I created a report to only reflect vehicles taken in arrests from 0600 09 May 2012 to 0600 10 May 2012 I came up with 40 vehicles 23 of which were narcotics impoundments. So, the report is not working properly. Can you please refer to the second e-mail message I sent you or if you would like I will send it to you again.

Thanks,

I have provided a screen shot for you to view. Also, the report is missing the option to query by time and date. We use different queried times and if necessary add fields to these reports as needed for specific investigative purposes. If you could send us the original functioning crystal this would be easier for us to use and revise as needed.

The screenshot shows a web browser window with the address bar displaying <http://crystal1.chicagopolice.local/businessobjects/ente>. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar shows various icons, including a Google search button. The main content area displays the 'CLEAR' system interface for the 'Seized Vehicle Report'. The left sidebar shows a 'Folders' tree with 'Home' selected, containing 'My Folders', 'Public Folders', 'alpha star', 'Asset Forfeiture', and 'Data Warehouse Rep'. The main form area is titled 'Seized Vehicle Report' and prompts the user to 'Enter prompt values.' It contains two date input fields: 'STARTING DATE' with the value '2012-5-10' and 'ENDING DATE' with the value '2012-5-11'. Both fields have a placeholder text 'Please enter Date in format "yyy-mm-dd"'. An 'OK' button is located at the bottom right of the form. The status bar at the bottom indicates 'Waiting for http://crystal1.chicagopolice.local/bus' and shows an 'Internet' connection.

Thanks,

Renee

Renee

Every time we needed to look up information on Impounded vehicles, we would check the HotDesk. If the information needed is not getting entered into the HotDesk by CPD, Commander Lewin needs to be notified. Unfortunately, we still do not have access to the Hotdesk and will not be able to assist.

Subject: RE: Additional Crystal Report Information...

Jon,

We have created a crystal report that pulls data from various tables located in CLEAR-DW. The data pulled into this report provides us with information on vehicles impounded for narcotics. This report is used daily to release vehicle on narcotics hold with the Department of Revenue and also to send to forfeiture court.

At 0600 when I come into work I run the crystal reports querying the date and time for the previous day starting at 0600 to the present day ending 0600. I then review these reports to find out if we are going to move to forfeit the vehicle or if we are going to release the vehicle back to its owner. I must then prepare a list of released vehicles to fax down to the Department of Revenue so that customers are able pay their fines associate with the impoundment and then remove their vehicles from the pound.

Copies of the daily crystal reports are included in both the daily release packets we archive here in narcotics and they are also included in forfeiture packets we send to the SAO for preliminary and forfeiture hearings.

Prior to the new hot desk rollout this report was functioning without any problems.

Report should include the following:

1. arrestee information
 - a. home address
 - b. cb#
 - c. ir#
 - d. number of arrestees
 - e. case report #
 - f. sex/race/age
2. location of incident
 - a. beat of occurrence
 - b. district of occurrence
 - c. arresting unit
 - d. date of arrest
3. vehicle information
 - a. year
 - b. plate
 - c. plate exp
 - d. state of plate
 - e. vehicle type
 - f. vehicle model
 - g. color
 - h. vin number
4. inventory number
5. narcotics description
6. narcotics weight
7. charge of arrest
 - a. statute
8. narrative

I hope I have provided with this information you are looking for.

Thanks Renee

Subject: Additional Crystal Report Information...

Alex,

I was able to finally run the report in BO. The report does not reflect accurate narcotics vehicle impoundment information; nor does it show the narcotics weight and description. I have compared a report created using Crystal Reports showing narcotics arrests with vehicles for the same dates 09 May 2012 to 10 May 2012. The report in business objects shows only two vehicles impounded; when in fact we have impounded at least 40 vehicles since yesterday at 0600 hours. A percentage of the 40 vehicles should be narcotics related arrests with impounded vehicles. To get an accurate number, I must read all 40 narratives. I would say at this point the report I sent you is not providing accurate data.

Lt,

We are working to restore the Data Warehouse that will enable your report to run.

ARS temporarily assumed the function of entering tow records into Hot Desk from Streets & Sanitation. The Hot Desk and related Data Warehouse tables can only display what is in the system.

ARS is doing the best they can with this task and is aware of the urgency in this matter. In addition to CPD, CDOT, DoIT, Streets & Sanitation, NICB all rely on the Hot Desk data and we are assisting in every way possible to provide it.

I will keep you updated on the progress.

Subject: AFI Crystal Report still not functioning

Importance: High

Alex,

I tested the report you fixed for us that you published in business objects. I was not able to run the reports needed to release vehicles today because all this report does is hang ... I have provided a screen shot for you to view. Also, the report is missing the option to query by time and date. We use different queried times and if necessary add fields to these reports as needed for specific investigative purposes. If you could send us the original functioning crystal this would be easier for us to use and revise as needed.

The screenshot shows an Internet Explorer window with the address bar displaying `http://crystal1.chicagopolice.local/businessobjects/entr...`. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. Below the menu bar is a Favorites bar with links to 'CLEAR Main Menu' and 'InfoView'. The main content area displays the 'Chicago Police Department CLEAR' interface. On the left is a 'Folders' pane with a tree view containing 'Home', 'My Folders', 'Public Folders', 'alpha star', 'Asset Forfeiture', and 'Data Warehouse Rep'. The main pane shows a 'Seized Vehicle Report' form with the instruction 'Enter prompt values.' The form contains two sections: 'STARTING DATE' and 'ENDING DATE'. Each section has a text input field with a date picker icon to its right. The 'STARTING DATE' field contains '2012-5-10' and the 'ENDING DATE' field contains '2012-5-11'. Below these fields is an 'OK' button. At the bottom of the browser window, the status bar indicates 'Waiting for http://crystal1.chicagopolice.local/bus...' and shows the Internet icon.

Thanks,

Renee
