Subject: Palantir follow-up

Cmdr. Lewin,

Hope you are well. I am glad we had a chance to connect on Friday. As I mentioned, we would like to have you visit our NYC offices to share more about our work, particularly in supporting NYPD, when you are in town. What is your schedule availability for February 18th?

Building upon our previous demo and discussion with you and your team in Chicago, we can also share some additional capabilities that other customers use in their daily work either in command or patrol. For example, we recently rolled-out Palantir access across all ~2,000 patrol cars within LA Sheriff's Department – officers can now also access Palantir in their vehicles in a "driver friendly" format.

We look forward to sharing more information about our work across key law enforcement agencies with you and your team. Please let me know what timing works best for you on Feb 18 or otherwise that week.

Thanks!

Katie

Hey Mike- hope all is well. Can you let me know if someone at County purchased Palantir and integrated some ICLEAR data into it? If so we'd love to take a look, I'm told it may be "Cook County Intelligence" but not sure who that is. I'm at 312-656-2311.

How's the new condo?

Take care,
Jonathan

Jon --

Great chatting earlier. Below is info about the training sessions we are hosting on Palantir next week. Send me the names of anyone from your units you'd like to have attend. I should have at least a few extra spots in each of the sessions.

My contact info is below, so please don't hesitate to reach out whenever. Happy to chat.

Take care,

BB

Subject: Palantir Training -- May 20-22

Hi Everyone,

Palantir will be back in town next week Tuesday May 20 - Thursday May 22 to conduct additional training sessions. We will be offering the Intro course again for anyone who missed that last time, as well as several sessions of advanced training for those who attended last month. I am attaching here the roster of individuals who attended last month's training for your reference.

Below you will find the dates and times that training will be offered, along with info on which level of training will be conducted during each time slot. Just as last time, you will need to register anyone from your unit who is interested in attending training. Please email me the names of individuals along with the date/time session they wish to attend. I will need your registration via email no later than noon on Friday, May 16th, please. I will send calendar invites for the sessions out that afternoon so you and your employees have time to plan.

Sessions are as follows:

Tuesday, May 20, 9:00 AM - 12:00 PM -- Intro (no previous experience required)
Tuesday, May 20, 1:00 PM - 4:00 PM -- Intro (no previous experience required)

Wednesday, May 21, 2:00 PM - 5:00 PM -- Advanced (previous 101 training required)

Thursday, May 22, 8:00 AM - 11:00 AM -- Advanced (previous 101 training required)
Thursday, May 22, 12:30 PM - 3:30 PM -- Advanced (previous 101 training required)

The Advanced training session will build upon the Intro, and will cover exporting profiles, timeline, team collaboration, creating and using filters, importing documents, and map analysis.

Classes will be held at South Campus, Building 5, Basement Training Room. Each session can accommodate up to 22 individuals. If there is an overwhelming demand for additional 101 Intro classes, we will do our best to add in an additional session to accommodate.

Please let me know if you have any questions. I can be reached at 312-590-0849.

Thanks much,

BB

<Jonathan.Lewin@chicagopolice.org> wrote:

I have approval and we're ready to begin testing the Bad Business Analytics dashboard. It integrates a Wiki that allows users to add comments related to any business to allow various city departments and users to coordinate intervention and follow-up activities. The dashboard queries the following data sources:

- Incidents
- Arrests
- Calls for Service
- ANOVs

I am waiting for access to 311-CSR data from DoIT, which will be integrated next.

The internal CPD version will also show Contact Cards.

We need a list of initial beta test users so we can roll this out for testing this week.

I met with that guy for breakfast this morning. It turned out he was actually quite pleasant after all. They are a company based in New Zealand that sells a lower cost alternative to Palantir. It sounds quite similar, so I guess it would not be of any interest to CPD, since you already have Palantir. They have not broken into the US market significantly - they mainly sell to Asia. Their applications are mainly around low-volume crimes, like financial crimes and organized crime, rather than things like burglaries.

The only slightly bad news is that they are trying to implement something like SSL within their link charting framework, but so far they are just beginning. He did not actually try to sell me anything, and did not express interest in meeting with you. I think he was

more trying to learn about the state of our project and keep an eye on us. We agreed that we'd stay in touch in case there are future opportunities to collaborate in some way.

We had one point of agreement. He was very dismayed by the PredPol event. He said the product is very "rudimentary" and that he doesn't know of any other first-world country where the police chief could get up and do a sales pitch like the Atlanta guy did. He thought it was shameful.

Hi Everyone,

Palantir will be back in town next week Tuesday May 20 - Thursday May 22 to conduct additional training sessions. We will be offering the Intro course again for anyone who missed that last time, as well as several sessions of advanced training for those who attended last month. I am attaching here the roster of individuals who attended last month's training for your reference.

Below you will find the dates and times that training will be offered, along with info on which level of training will be conducted during each time slot. Just as last time, you will need to register anyone from your unit who is interested in attending training. Please email me the names of individuals along with the date/time session they wish to attend. I will need your registration via email no later than noon on Friday, May 16th, please. I will send calendar invites for the sessions out that afternoon so you and your employees have time to plan.

Sessions are as follows:

Tuesday, May 20, 9:00 AM - 12:00 PM -- Intro (no previous experience required)

Tuesday, May 20, 1:00 PM - 4:00 PM -- Intro (no previous experience required)

Wednesday, May 21, 2:00 PM - 5:00 PM -- Advanced (previous 101 training required)

Thursday, May 22, 8:00 AM - 11:00 AM -- Advanced (previous 101 training required)

Thursday, May 22, 12:30 PM - 3:30 PM -- Advanced (previous 101 training required)

The Advanced training session will build upon the Intro, and will cover exporting profiles, timeline, team collaboration, creating and using filters, importing documents, and map analysis.

Classes will be held at South Campus, Building 5, Basement Training Room. Each session can accommodate up to 22 individuals. If there is an overwhelming demand for additional 101 Intro classes, we will do our best to add in an additional session to accommodate.

Please let me know if you have any questions. I can be reached at 312-590-0849.

Thanks much,

BB

Subject: Clarity

Transitional Task Order

- Establish new MCA pool which Clarity will be in
- Application support
- Instead of extend the underlying old MCA, do a transitional task order under new MCA

Example EKI support web, doing RFP to replace web support... following same model directed task order...

Three YRS RFI 9 months RFQ at least a year Implementation
How have we been paying them?

Maintenance alone \$45 mill

- Are there things we can propose that are a win-win that are a value for the city? Ex: Shooting ranges outdoor...
- Palantir? Old software... City- New software... Double down in city instance... Bifurcate data... Joint DSHEM-Joint City-County Palantir... Leverage city contract...
- WindyGrid - Enterprise app Event management- city/ county? 3 Yr Joint development task force

Good that Tracy did not say he was upset about not having seen the crime forecast or the beat dashboard.

Interesting. We have not actually purchased Palantir yet, but will likely do so; partially because both the City and Cook County Sheriff have implemented it and there will be some cross-platform interoperability and cost-savings (potentially). I totally agree re: Palantir. I attended Chief Tracy's presentation with David Kennedy today on Custom Notifications; only about 20 people at most in attendance. Will brief you. He mentioned again how happy he was with our presentation and your SSL 3 work.

I met with that guy for breakfast this morning. It turned out he was actually quite pleasant after all. They are a company based in New Zealand that sells a lower cost alternative to Palantir. It sounds quite similar, so I guess it would not be of any interest to CPD, since you already have Palantir. They have not broken into the US market significantly - they mainly sell to Asia. Their applications are mainly around low-volume crimes, like financial crimes and organized crime, rather than things like burglaries.

The only slightly bad news is that they are trying to implement something like SSL within their link charting framework, but so far they are just beginning. He did not actually try to sell me anything, and did not express interest in meeting with you. I think he was more trying to learn about the state of our project and keep an eye on us. We agreed that we'd stay in touch in case there are future opportunities to collaborate in some way.

We had one point of agreement. He was very dismayed by the PredPol event. He said the product is very "rudimentary" and that he doesn't know of any other first-world country where the police chief could get up and do a sales pitch like the Atlanta guy did. He thought it was shameful.

Hey Tom-

We're doing a news event in the new CPIC today to demonstrate the new technology including radio interoperability, and I might ask if we can test calling you on a Cook County Sheriff's frequency (I'm 9200, or may come up as CPIC 1 or Chicago Police CPIC or something)... would you or someone be available with a radio that has an appropriate frequency we could dial up around 11A - Noon or so?

I'm at 773-220-9999.

Thx
Jonathan

Yes, free anytime after 1PM. Can do either OEMC (where I'll be for a previous mtg) or
Police HQ...
